

# Sovereign Multi-Agent AI

By IsaKai Holdings & Bookings Group LLC

A \$60,000 Vision for a First-to-Market AI Ecosystem

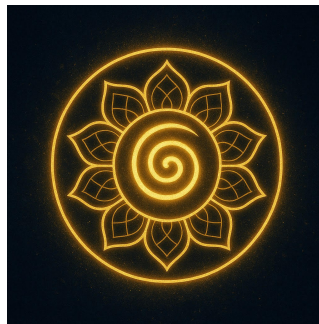

# System Overview

IsaKaiHBG\_AI is a cutting-edge, multi-model AI stack designed for rapid development, sovereign data security, and market-scale operations.

Core AI Models:

- Gemma 7B (Research & Summarization)
- WizardCoder 7B (Automation & Code)
- Mistral 7B (Trading Strategy & Execution)

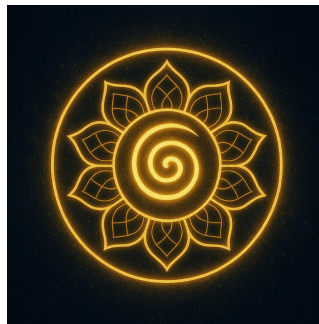

This integrated system can deliver trading, coding, and research solutions faster than any centralized AI provider, ensuring full sovereign control.

# Technology & Sovereignty

- Integrated Whisper voice control for seamless input.
- LLaMA.cpp + Ollama for on-device inference.
- WireGuard & Yggdrasil networking (Firejail optional).
- Real-time orchestration of Gemma, Wizard, and Mistral.

With this stack, IsaKaiHBG\_AI offers unmatched speed, privacy, and autonomy.

# Funding Breakdown - \$60,000 Request

Hardware & Infrastructure (\$20,000):

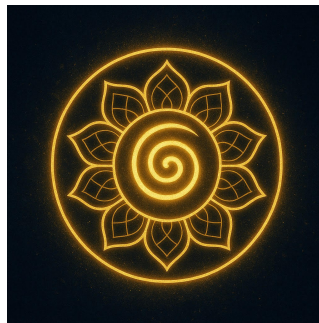

- 192GB DDR5 workstation (RTX 4090, i9-14900K).
- Dedicated networking & GPU acceleration.

Platform Development (\$25,000):

- Advanced agent orchestration and AI tuning.
- Whisper, Ollama, and LLaMA.cpp integration.

Scaling & Launch (\$15,000):

- Secure network expansion.
- Investor demos and scaling the trading/coding stack.
